Feature Extraction using MATLAB

- 1. Means of Red, Green and Blue.
- 2. Standard Deviation
- 3. Mean
- 4. Median
- 5. Maximum
- 6. Minimum
- 7. Entropy
- 8. Above & Below RGB: The number of pixels which are above and below the average values of Red, Green and Blue components separately.

The process is done for images after Noise Reduction and Edge Detection

```
mydir='/MATLAB Drive/Class-1';
fileformat='*.jpg';
dd=dir(fullfile(mydir,fileformat));
assert(numel(dd) > 0, 'No file was found. Check that the path is correct');
my_img = struct('img', cell(size(dd)));
